

Greg Warren Testimonial

August 15, 2022

It is my honor to write this letter of recommendation for comedian Greg Warren. This summer Greg performed for us in front of 130 educators from 15 diverse school districts from across Southwestern Illinois. He helped cap off an entire week of SEL professional development for teachers and school staff. You can't focus on social-emotional learning without including the importance of laughter. I am so glad that Greg was able to join us and reinforce that message. There is nothing better than a large group of teachers laughing for almost an hour. It was an honor to have him perform and entertain the crowd. Many in the crowd were already huge fans and many more became huge fans when they left the conference that day.

First and foremost Greg was hilarious, secondly his comedy is perfect for educators. He is 100% clean, relevant, and can craft his set around his audience. Finally, and perhaps most importantly Greg is a consummate professional. He was a pleasure to work with, arrived on time and even stayed later than he was required to in order to meet and take pictures with teachers as they left. If you have the opportunity to book Greg Warren for your school, conference, workshop, or special event do not hesitate. He can provide a great keynote, ice breaker or help give your conference a needed energizer. He is honestly one of the best comedians working today. If I can be of further assistance to you or your planning team please don't hesitate to contact me. We can't wait to book him again!!!
